

The Opposites Game

Y3NAS3

You can cut out the cards and play the opposite game.

Lay the cards out, face down. Turn a card over. Can you find the opposite (inverse) operation?

$$10 + 8 = 18$$

$$18 - 8 = 10$$

$$5 + 9 = 14$$

$$14 - 9 = 5$$

$$3 + 7 = 10$$

$$10 - 7 = 3$$

$$6 + 7 = 13$$

$$13 - 7 = 6$$

$$8 + 7 = 15$$

$$15 - 7 = 8$$

$$9 + 2 = 11$$

$$11 - 2 = 9$$
