

Multiplying Fractions By Whole Numbers

Y5NFr5

We can use grids to help us multiply fractions by whole numbers.

Here we see $2/9 \times 3$

$1/9$	$2/9$	$1/9$
$2/9$	$1/9$	$2/9$

So, $2/9 \times 3 = 6/9$

Try using this grid of 8 squares to work out $2/8 \times 3$
