

Look at this calculation.

$$135 \div 5 =$$

We can use multiplication facts that we know to help us work out the answer to the problem.

$$20 \times 5 = 100$$

$$7 \times 5 = 35$$

$$27 \times 5 = 135$$

So $135 \div 5$ would equal 27.

Try using multiplication facts that you know to divide these numbers by 5

175 140 210 105 85
